<i>Thursdays, 4:00 p.m. HSW-301 (except as noted)</i>		
DATE	SPEAKER	HOST
9/13/01	TETRAD retreat at Granlibakken	No seminar
9/20/01	Takaomi Saïdo RIKEN Visiting Lecturer "Abeta Metabolism: Alzheimer Research To Brain Aging Control"	Louis Reichardt
9/27/01	Neuroscience Asilomar Retreat	No seminar
10/04/01	Yi Sun <i>UCLA</i> "Neurogenin promotes neurogenesis and inhibits glial differentiation by independent mechanisms"	Louis Reichardt
10/05/01 Special Friday seminar Room: HSW- 300	Susumu Tonegawa <i>Massachusetts Institute of Technology</i> "Role of Hippocampal CA3 NMDA Receptors in Pattern Completion and Memory Recall"	Louis Reichardt
10/11/01	David McCormick <i>Yale University</i> "Dynamics of Network Activity in the Visual System"	Roger Nicoll <i>Co-sponsored by the Sloan- Swartz Center for Theoretical Neurobiology</i>
10/18/01	No seminar	
10/25/01	Peter Gillespie <i>Vollum Institute, Oregon Health Science University</i> "Myosin 1c is a Hair-Cell Adaptation Motor"	Ellen Lumpkin
11/01/01	David Heeger <i>Stanford University</i> "Attention and Sensory Signals in Primary Visual Cortex"	Ken Miller <i>Co-sponsored by the Sloan- Swartz Center for Theoretical</i>

		<i>Neurobiology</i>
11/08/01	Society for Neuroscience Meeting	No seminar
11/15/01	Society for Neuroscience Meeting	No seminar
11/22/01	Thanksgiving Holiday	No seminar
11/29/01	John Flanagan <i>Harvard University</i> "Axon guidance and neural map specification by ephrins"	David S. Bredt
12/06/01	Susana Cohen-Cory <i>University of California, Los Angeles</i> "Neurotrophins Modulate the Development of Neuronal Connectivity: from Dendrites and Axons to Synapses"	Louis Reichardt
12/13/01	Holidays	No seminar
12/20/01	Holidays	No seminar
12/27/01	Holidays	No seminar
1/03/02	Holidays	No seminar
1/10/02	Liqun Luo <i>Stanford University</i> "Wiring Up the Central Olfactory System in Drosophila"	Yuh-Nung Jan
1/17/02	Piali Sengupta <i>Brandeis University</i> "Scents and sensibility: Development and function of sensory neurons in <i>C. elegans</i> "	Cori Bargmann
1/24/02	Kwabena Boahen <i>University of Pennsylvania</i> "A Silicon Retina With Parallel Pathways"	Herwig Baier
1/31/02	Gilles Laurent California Institute of Technology "Brain Oscillations And The Transformation Of Olfactory Codes"	Cori Bargmann <i>Co-sponsored by the Sloan-Swartz Center for Theoretical Neurobiology</i>
2/07/02	Robert J. Wenthold <i>NIDCD/NIH</i> "Glutamate Receptors: On The Road To The Synapse"	David S. Bredt

2/14/02	Scott Grafton <i>Dartmouth College</i> "Acquiring new motor skills: functional imaging of long term practice"	Flip Sabes <i>Co-sponsored by the Sloan- Swartz Center for Theoretical Neurobiology</i>
2/21/02	V.S. Ramachandran <i>University of California, San Diego</i> "What Neurology Can Tell Us About Human Nature, Body Image And Synesthesia"	Cory Blaiss
2/28/02	CANCELLED Michela Gallagher <i>Johns Hopkins University</i>	Allan Basbaum
3/07/02	Angeles Ribera <i>University of Colorado</i> "Ion Channel Function in Touch- Insensitive Zebrafish Mutants"	Ellen Lumpkin
3/14/02	Eric Knudsen <i>Stanford University</i> "Mechanisms of learning in the auditory system of the barn owl"	Allison Doupe <i>Co-sponsored by the Sloan- Swartz Center for Theoretical Neurobiology</i>
3/21/02	Sheila A. Nirenberg <i>UCLA</i> "Dissecting Neural Circuits in the Visual System using Targeted Cell Class Ablation"	Louis Reichardt
3/28/02	Spring Symposium	No seminar
4/04/02	Kelsey C. Martin <i>UCLA</i> "mRNA Localization and Local Protein Synthesis during Synapse-Specific Plasticity"	Fen-Biao Gao
4/11/02	Lakshmi Devi <i>New York University</i> "Receptor-Receptor Interactions Modulate Opioid Receptor Function"	Allan Basbaum
4/18/02 rescheduled from 4/19/02	James Hudspeth <i>Rockefeller University</i> "How the ear's works work: mechanoelectrical transduction and	Ellen Lumpkin

	amplification by hair cells"	
4/25/02	Joshua R. Sanes <i>Washington University</i> "Lamina-selective synapse formation in the visual system"	David Bredt
5/02/02	CANCELLED Pietro de Camilli <i>Yale University</i>	Reg Kelly
5/09/02	Bob Wurtz <i>NIH</i> "A Corollary Discharge to Primate Frontal Cortex"	Stephen Lisberger <i>Co-sponsored by the Sloan- Swartz Center for Theoretical Neurobiology</i>
5/16/02	Michael Lewicki <i>CMU/CNBC</i>	Flip Sabes <i>Co-sponsored by the Sloan- Swartz Center for Theoretical Neurobiology</i>
5/23/02	David Linden <i>Johns Hopkins University</i> "Synaptic and non-synaptic plasticity in the cerebellum"	Roger Nicoll
5/30/02	Roger Cone <i>Vollum Institute, Oregon Health & Science University</i> "Role of the melanocortin system in energy homeostasis?"	Mary Dallman
6/06/02	Chris de Zeeuw <i>Neuroscience Institute, FGG Erasmus University Rotterdam</i> "Plasticity in the ideas about the olivocerebellar system"	Stephen Lisberger <i>Co-sponsored by the Sloan- Swartz Center for Theoretical Neurobiology</i>
6/13/02	tba	tba
